PHOENIX, ARIZONA - GORT METALS AWARDED TWO CARPORT CONTRACTS WITH WOLFF CONSTRUCTION

Gort Metals today announced it has been awarded two contracts by Wolff Construction to provide carport systems for upcoming construction projects.

Under the agreements, Gort Metals will design and fabricate custom carport structures aligned with the specific requirements of each development. Project timelines and delivery schedules will be coordinated to support Wolff Construction's construction milestones.

"We are honored to be selected by Wolff Construction for these projects," said John Gort, President & Owner of Gort Metals. "Our team takes pride in delivering durable, high-quality structures that work seamlessly with our partners' builds. We value the trust Wolff Construction has placed in us and look forward to supporting their continued success."

The awards reflect ongoing collaboration between the two companies and underscore a shared focus on quality, reliability, and execution.

MORE ABOUT GORT METALS

Gort Metals specializes in the design and fabrication of high-quality metal structures, delivering innovative solutions for commercial and industrial applications. With a focus on efficiency, durability, and customer satisfaction, Gort Metals partners with contractors throughout the South West to bring projects to life.
