GORT METALS COMPLETES PHASE 1 OF VALLEY METRO PARK-AND-RIDE PROJECT ON SCHEDULE

PHOENIX, AZ — August 26, 2026 — Gort Metals has successfully completed Phase 1 of a major Park-and-Ride project supporting Valley Metro, marking an important milestone in the multi-phase project. Completed on schedule, Phase 1 reflects Gort Metals' commitment to reliable delivery, quality fabrication, and strong project coordination.

Working alongside Kiewit and Valley Metro, Gort Metals is providing its expertise in commercial steel shade and covered parking structures for the new shade canopy installation at the Baseline/Central Ave. This project provides much-needed relief for transit riders while enhancing the overall passenger experience. Projects like this demonstrate how thoughtful infrastructure investments can make a meaningful difference in the daily lives of Arizona residents.

The company's experience with large-scale transportation and public infrastructure projects supports its ability to deliver durable, practical solutions while meeting project schedules.

Gort Metals approaches every project as a long-term partnership, with a focus on helping contractors deliver successful builds that owners and communities can rely on for years to come.

With Phase 1 successfully completed, Phases 2 and 3 remain ahead. Gort Metals looks forward to continuing its work with Kiewit and Valley Metro through the remaining phases and building on the success of the project to date.
